

Since colonization, Canadians and Americans have viewed religious matters differently. While this is not surprising given contemporary Canadians reluctance to embrace U.S.-style social conservatism, the roots of the phenomenon are seldom examined. J.I. Little seeks to correct this oversight with *Borderland Religion*. Focusing on the settlement period of the Eastern Townships region of Quebec, Little addresses the role played by religion in forging a distinctive national identity for English-Canadians. While radical evangelical churches and sects developed in the hill country of New England, they failed to gain a strong foothold in the neighbouring Eastern Townships despite the majority of the population there being of American origin. Rather, the British-based Church of England and Wesleyan Methodist Society became much the largest denominations in this border region. *Borderland Religion* is effectively a borderlands study in reverse. Rather than examining the dynamics of contact between two distinct cultures in a common geographical space, or middle ground, it explores how a common culture became differentiated on either side of an international boundary line. In the process, it also illuminates the woefully neglected history of Protestantism in Quebec.

The Man from Arimathaea: Joseph of Arimathaea The Man Who Buried Jesus, Touching the Heart: Xhosa Missionaries to Malawi 1876-1888, Field Guide to Drone Safety: This time with some simple humor about a very serious topic, Outside and Inside Sharks (Outside Inside), Anthem: With linked Table of Contents, Origins: Colliding Causalities (Third Flatiron Anthologies Book 3), Salt Of The Earth, The Detached Retina, DK Riding Club: Horse and Pony Breeds, Modeling Multi-Level Systems (Understanding Complex Systems),
