

The purpose of this book is to tell you what to put in your evidence pack when applying for a visa to get spouse and children into the UK from outside the EU. My wife and I can advise you on this because we have applied for four visas in five years, fought 3 court battles, 2 without a lawyer and through God-Almightys help and power, won them all. So we have done things right, and many things wrong – and you get to benefit from them all. Do not be fooled at the shortness of this book. It cost us five years of our life, thousands of pounds, and lots of heartache and prayer for this information to come about. You can read our story inside the book if you choose but I will say, in short, that being separated from your spouse and children is a pain I do not wish upon you. I have written this e-book so you do not have to go through what we went through just because of ignorance. The British Government will not tell you what to put in the pack and this makes sense because there are many dishonest people who will fake evidence. We pray that you are just like us, honest ordinary folk who want to be together with our loved ones. This is a short version of the book which tells you what you need to include and why. A longer version is being published with examples of evidence statements and evidence so you can see exactly what we put and why. It will also contain details of what to do if you have to go to appeal court. If you buy this kindle version and turn on automatic update you will get the full version of the book within about six weeks or less. I am still writing it but felt the push inside to release this short version which will still tell you how to successfully prepare the very important evidence pack. UPDATE: 10th October - I have added in additional documents related to bringing children over and added explanatory notes. If anything is not clear in the book email me at joshua-abraham@mail.com PS: If you dont have a kindle dont worry!
