

Children six to ten, parents, and teachers will join Sambok the cat and his friends on an adventure as they journey four nights to a place of shelter. The idea that people (and cats) have to take risks and not give up if they want to improve their lives is the central message of the story. Children will learn about the importance of friendships, cooperation, problem-solving, effective leadership, and the value of trying hard. The story contains vibrant full-color illustrations and includes 31 questions for discussion. Additionally, a list of vocabulary words and their definitions is provided.

A feral cat is a cat that lives outdoors and has had little or no human contact. They do not allow themselves to be handled or touched by humans, and will run.

Cat overpopulation is a serious concern, approximately 2 percent of the million community (feral and stray) cats have been spayed or neutered. It is estimated that between 30 and 40 million homeless cats live in the U.S.

[READ: Public weighs in on Palm Coast feral cats] Cats need to be adapted or socialized to people as kittens or they usually react to people with.

Although ferals are fearful of humans, they are still domesticated and ill-equipped to survive on their own. Feral cats do not die of old age. Feral, stray, and pet cats are all members of the same species; they are all domestic cats. But stray cats and feral cats are also different from each other in a very.
